Page7.html desktop	Page7.html mobile
 <p>This wireframe shows a desktop layout for Page7.html. It features a header with the title 'PAGE 1 Title'. The main content area is divided into two columns. The left column contains a large image placeholder. The right column contains four text blocks. Below the text blocks is a sub-heading, followed by five buttons. At the bottom, there is another large image placeholder on the left and a large text block on the right, with a button centered below the text.</p>	 <p>This wireframe shows a mobile layout for Page7.html. It starts with three buttons at the top. Below them is a title bar. The layout then splits into two columns: a large image placeholder on the left and a text block on the right. At the bottom, there is a text block on the left and a large image placeholder on the right, with a small arrow pointing to the right next to the image.</p>
Page8.html desktop	Page8.html mobile
 <p>This wireframe shows a desktop layout for Page8.html. It has a header with the title 'PAGE 2 Title'. Below the title is a sub-heading, followed by five buttons. The main content area is divided into two columns. The left column contains a large text block. The right column contains a large image placeholder. Below the image placeholder is another large image placeholder. At the bottom, there are four text blocks and a button.</p>	 <p>This wireframe shows a mobile layout for Page8.html. Task List:

Tasks:

Andrei:

Page 1&2 :Landing page”s” (first 7 pages of pdf, broken between two pages)

Tristan:

Page 1: Info pages 8- 13 in pdf report on Irish water

Page 2: location, how to get to us address with google maps

Alexander:

Page 1: Contact us page (customer email/newsletter sign up, comment box) ,

Page 2: info (who uses our water and for what?)

Derek:

Page 1: Report European water usage and where its needed the most

Page 2: Sources page: where all the information was gathered from

Notes:

- Everyone needs two pages no less
- One CSS file only
- Comment CSS to identify who made it
- Two wireframes per page each: desktop and mobile
- One sitemap per group
- [Colour palette:](#)
